FOR IMMEDIATE RELEASE

13 November 2023, Dar es Salaam:

PanAfrican Energy Tanzania Ltd (PAET) to Supply Natural Gas from Songo Songo to new TAQA Dalbit Compressed Natural Gas (CNG) Filling Station in Dar es Salaam.

PanAfrican Energy Tanzania Limited (PAET), an Orca Company, today announced commencement of its contract to supply natural gas to TAQA Dalbit for compression and subsequent supply to vehicles in the Dar es Salaam area.

Andy Hanna, Managing Director at PanAfrican Energy Tanzania Limited (PAET) commented, "Over the last decade, PAET's reliable CNG supply has benefitted thousands of domestic vehicle owners as well as the wider Dar es Salaam community and local industries. We are delighted to be supplying natural gas for compression to TAQA (Dalbit) and congratulate them on opening this new CNG station in Dar es Salaam today."

PAET has led the CNG industry in Tanzania for over 14 years, since launching its Compressed Natural Gas (CNG) operation in 2009. Over this period there has been considerable growth in local demand for CNG as an alternative transition fuel for vehicles that is not only cost effective but also significantly cleaner than traditional petrol and diesel.

The supply of natural gas to expand CNG facilities in the region marks a crucial advancement in ensuring more local vehicle owners and industries are able to benefit from Tanzania's natural resources, particularly from the Songo Songo gas field. As Tanzania's first and largest gas producer operating the Songo Songo gas field for nearly two decades, PAET takes pride in playing a significant role in Tanzania's continued sustainable development, consistently supplying gas for power generation and industrial use.

More than 20 years of investing in natural gas for Tanzania.
